YOUR HEALTH, OUR PRIORITY

# MEDI NEXT GEN HEALTHCARE

Healthcare DSA & Support Services | Redefining Patient Facilitation and Diagnostic Connectivity Across India

# Company Overview

Connecting patients with trusted, reliable healthcare and pathology diagnostic partners effortlessly

# Our Purpose & Vision

## Who We Are

Medi Next Gen Healthcare acts as a trusted patient facilitation and support organization. We bridge the gap between healthcare seekers and leading, accredited diagnostics.

## Our Vision

To make premier medical healthcare services fully accessible, conveniently available, and highly reliable for every single individual nationwide.

## Our Mission

Delivering high-quality patient-centric support, strong diagnostic partner linkages, robust home diagnostics coordination, and advanced technology-enabled support services.

# National Footprint

**PAN INDIA**

PRESENCE

## Seamless Coordination Across India

Through our rapidly scaling diagnostic coordination networks and highly integrated digital models, we successfully manage healthcare support requests across multiple states and metros in India.

By pairing technology with strategic partnerships, we make localized physical medical access completely effortless for patients regardless of geography.

# Our Healthcare Services

### Diagnostic Bookings

Fast-tracked pathology and radiology test bookings at top accredited diagnostic labs across the country.

### Doorstep Collections

Safe, hygienic, and highly convenient home sample collections by fully certified and trained phlebotomists.

### Support & Guidance

End-to-end telecalling helpdesk and experienced diagnostic navigators to guide patients in their health journey.

# Business Model & Partnerships

A synergistic approach to connecting regional diagnostic networks and national healthcare aggregators

# The Patient Journey

### 1. Request Booking

Patients raise diagnostic booking requests easily via our coordinated support desks.

### 2. Routing Desk

Medi Next Gen Healthcare routes and assigns the task to specialized partner labs.

### 3. Sample Collection

Certified phlebotomists perform doorstep sample collection with absolute safety protocol.

### 4. Report Delivery

Accurate test results are dispatched digitally, backed by telehealth guidance options.

# Why Partner With Us?

**Proven Lead Generation**

Accelerated routing of highly qualified diagnostic patient leads right to your laboratory or clinic network.

**Streamlined Patient Acquisition**

A trusted, highly effective direct-to-patient marketing and DSA support team managing localized health packages.

**End-to-End Telecalling Support**

Dedicated outbound assistance teams, ensuring booking follow-ups, queries, and digital report support.

**National Business Expansion**

Unlock fast-track penetration into emerging regional markets without heavy administrative or physical setups.

# Industries We Serve

## Pathology & Clinical Care

Providing seamless customer pathways for diagnostic labs, regional healthcare clinics, multi-specialty hospitals, and pathology chains seeking high patient touchpoints.

## Wellness & InsurTech

Integrating with tech-enabled health startups, holistic corporate wellness brands, and insurance providers seeking customized, transparent preventive checkups at scale.

# Future Expansion Plan

### 1. Network Growth

Expanding direct regional footprints deep into Tier-2 & Tier-3 locations across India.

### 2. Hospital Cells

Introducing premium, on-site diagnostics coordination desks with leading hospitals.

### 3. InsurTech API

Embedding unified booking and tracking models into insurance claim apps.

### 4. Digital Platform

Launching smart consumer-facing apps with interactive health tracking modules.
